

Team meeting on 5/1/2023

All members in communication about the next steps.

- Discussed the presentation that is on wednesday 5/3 during the lecture
- Need to finish project report and project presentation
- Didn't finish wireframes during lab 10, but could use that in the project report/presentation
- Need to record demo of project as a back up in case of any problem that happens during the presentation
- Need to ask about the architecture diagram
- Need to ask about the deliverables as well as the milestone count
- Ask about expected tools
- Next steps before presentation on wednesday:
 - Finish the settings page(or if not finished scrap it)
 - Complete everything and push it on to main
 - Do a practice run as well as record a demo to have on video
 - Complete presentation
