

Team meeting 0

All team members in attendance

No meeting with nikita (couldn't find a time slot)

This team meeting was really short as we were not able to confirm our project yet with our TA, nor were we able to find a time to meet with her.

In this meeting we discussed ideas of going further as well as where we wanted to have conversations at, how we would stay connected and how we would move forward in the following weeks

Nothing else was discussed
