

- Team meeting scheduled for 3:00pm on sunday april 16th.
- Members in meeting: Kailash, peter, catrina, joseph, andrew
- Discusses what we need to have done by monday
- Need to have login, register, and database done by monday
- Talked about who is going to be doing what
- Andrew volunteered to finish the database since it involves a postgres table with users being a primary key
- Talked about the completion of lab 11 and what we would have to do in order to finish it, we need to do the test that were giving in the lab document
- We updated our project columns moving task from the backlog/icebox column to the todo, in progress, and done column
- Nothing to assign, but can start to think of every task that we might do during this project right now
- We can think of more of what to do after tmrw's meeting with nikita and discuss how to assign task.
